SUMMARY OF THE REASONS FOR DECISION:

Busty Babes III is classified as objectionable. The CD-ROM makes available a large volume of sexually explicit material for the sexual arousal of its users. In doing so it promotes and supports five of the six matters stipulated under s3(2) of the Films, Videos, and Publications Classification Act 1993, automatically rendering it objectionable.

The CD-ROM consists predominantly of sexually explicit still photographic images, and sexually explicit stories. The nature of the material varies in its degree of explicitness, and appears to be assembled from a variety of sources with the purpose of being used in operating computer bulletin board services. The stories in particular make the CD-ROM objectionable. Numerous stories promote the sexual characteristics of young persons to an adult audience, or describe adults exploiting young persons for sexual purposes in a sexually arousing manner. The CD-ROM promotes and supports the exploitation of young persons for sexual purposes.

Many of the same stories and other stories also describe in explicit detail rape, abduction for sexual purposes, or sexual blackmail. This includes vivid descriptions of gang-rape in a manner that suggests that the victims deserve and enjoy the rape. Other stories are detailed sexual descriptions of acts of torture and extreme cruelty in a sexual context. The publication therefore promotes and supports the use of violence and coercion to compel persons to submit to sexual conduct, and promotes and supports acts of torture and the infliction of extreme cruelty by presenting them as sexually arousing.

Many of the same stories and others also involve descriptions of sexual partners urinating over each other, or using urine and in some cases excrement, to sexually degrade and dehumanise other persons. Several stories contain explicit descriptions of bestiality. *Busty Babes III* therefore promotes and supports the use of urine and excrement in association with degrading, dehumanising conduct and sexual conduct, and promotes and supports bestiality.
